

TABLE TALK for the Week of Jan 15-Jan 19.

Here are some of the activities going on this week both in class and throughout the school that you could discuss at the dinner table, in the car, or anytime with your child. As always, please contact me with any questions/issues.

Dear Parent/Guardian,

Our first week back to school went great! Most student behavior was on point, therefore we had time to do some fun learning activities & projects. I will be changing the timeframe for student to accomplish their Tenmarks.com assignment. Presently, I assign it from Mon to Sat night at 8:00pm. Since the class now has 55 minutes every Tuesday in the computer lab (in addition to time you give them at home) to accomplish their Tenmarks.com assignment, I will now assign it from Tuesday (beginning Jan 16th) with the deadline the following Monday night, 8:00pm. This will allow students the entire weekend to complete their assignment. Also, please remember that if your child fails (below 80%) the assignment the first time, they can/should take the amplifier so they can re-take the assignment & raise their grade. Currently, several students show little effort & fail to do this. Please use your username & password to log on & check their progress. If you need it again, please let me know.

On Tuesday, I will assign a Q & A History Project to your child. The written report is due Feb 12th & class presentations will given during the week of Feb 12th-16th. Please see the attachment & contact me with any questions. In an effort to help the students practice their newly learned 2-D shape(s) skills, this week I will assign a Math problem of the week on Tues & is due NLT Friday. Please ask your child about it or to see their work.

Finally, Love of Reading week will be Feb 5-8th & I'm inviting you to come in to read a book to your child!! If interested, please plan to read your favorite childhood book (you bring in) for 15-20 min to the entire class!! If you'd like to volunteer, please email me with the day & time that works best for you. The time periods available range between 7:30-9:15, 10:15-11:15, & 12:10-1:45 every day.

Below are the upcoming academic objectives & events for the week:

Math- 2D Shapes & Hierarchy
