

TABLE TALK for the Week of Nov 13-Nov 17.

Here are some of the activities going on this week both in class and throughout the school that you could discuss at the dinner table, in the car, or anytime with your child. As always, please contact me with any questions/issues.

Dear Parent/Guardian,

After reviewing past objectives for the last 2 weeks the class get to show off what they have learned on the Galileo tests this week. Good Luck "Super Crew"! Also sandwiched between the 2 tests is our annual Safety Day, which the students always love & enjoy. Please encourage your child to bring water & possibly wear a hat. We also have a date for our SIS National Spelling Bee test, which is Nov 30th in the auditorium. I've attached 2 spelling lists for students to study & we will have a class spelling bee on Nov 27th or 28th to determine who will represent our class as the primary and alternate.

This week I'll be introducing two new learning tools for the class. The 1st are Math 20/20 books which the students will mostly use in class. On the rare occasion your child has to take it home, it's because they did not finish the math problem in class. The 2nd tool is a weekly math assignment using the Tenmarks.com website. I will be sending home a parent letter tomorrow which includes your child's username, password, & also a parent code so you can monitor & review their progress. I also plan to give ID & PW cards to each student at school too.

Expect students to be assigned work on Mondays that is due on Friday NLT 12:00 pm. This website can be accessed at home or school & I also plan to allow students to use the class computers & iPads to complete it during the week. Our assignment will be this week! As always, please let me know if you have any questions/concerns.

Below are the upcoming academic objectives & events for the week:

Math- Scaling & Multiplication of Fractions

ELA- Text Reading Strategies

Science- The different systems of the human body.

Nov 13th- ELA Galileo Test.
